INTERNATIONAL STANDARD  
ISO 9001:2015, ISO 14001:2015 and ISO45001:2018

Top Management of ChrisnelSA (Pty) Ltd is committed to achieve excellence in all business activities, including Health, Safety, Environmental and Quality management.

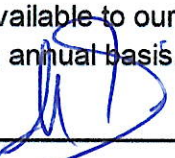

We are committed to continually improving our SHEQ performance within the scope of our processes by achieving the following:

- Development, implementation and maintenance of management system that conforms to the requirements of ISO 9001:2015 and where applicable refer to the Health, Safety and Environmental standards.
- Commitment to legal and other statutory and regulatory requirements where applicable.
- Ensuring customer satisfaction by providing excellent service and product.
- To reduce as far as possible negative impacts on the environment by minimizing waste, risks; preventing pollution and manage energy reduction where possible.
- To create a safe and healthy working environment by identifying and managing our risks and hazards by using hierarchy of controls, where applicable.
- Providing the necessary information, instruction, training and supervision to enable all our employees to identify hazards and contributes positively to health, safety, environmental and quality.
- To subscribe to the principle of continual improvement as well as development of our resources including staff training and development by consultation and participation of all employees.
- To assist sub-contractors and suppliers where possible to minimise the potential quality, safety, health, and environmental impacts arising from their practices and supply.
- The Quality; Safety; Health; Environmental; system define the ways in which the management systems and the associated risks are monitored, controlled and enforced.
- Referenced documented information shall be implemented; operated, maintained and continually improved to ensure that **ChrisnelSA (Pty) Ltd.** will only supply services that conform to customer requirements and the SHEQ standards where applicable.

As the Managing Director, I shall ensure, with the continued assistance of management, that the SHEQ Policy is implemented and understood at all levels within the organization.

This policy is the driving force of our management systems, thereby ensuring a high level of service quality, whilst ensuring a clean, safe and healthy environment for all.

This policy is available to our suppliers; customers and interested parties on request and reviewed on an annual basis.
